

RPMS Program

Update 3/06
Oklahoma City

Program Update

- Overview of Current Status of RPMS
- Update on application development and integration
- Update on 300
 - funding
- RPMS Priorities for 07 and 08
 - Future development
 - R&D

Overview of Current Status

- Consistent with PMA
- CRS- Davies Award for Public Health 2/06
- Over 60 applications
 - GUI scheduling
 - Reference lab
- EHR update- Hays (tomorrow)
- Vista Imaging- Mark Carroll
- Electronic Dental Record
- Integrated Case Management
 - Reminders
 - HIV, CVD
 - Support for chronic care initiative and BH initiative

	Laboratory - Reference Lab	Child to Laboratory	DME Clinical	Other RPMS Clinical & Administrative DME	Dorothy Russell				
	Occupational Medicine	Parent	DME Clinical	Other RPMS Clinical & Administrative DME	NAGA				

[illegible]

Overview of Current Status

- RPMS used by others
 - NASA
 - West Virginia Community Health Centers
 - NISH (presentation on Friday)
 - HIV SRS distributed by AHRQ to HIV collaborators to be used as a basis for their work

Update on Application Development and Integration

- Current Development focuses on meeting Directors Priorities as well as meeting health care clinical and practice management needs
 - CRS
 - BH
 - iCARE (case management)
 - Patient safety (initially based on WebCident)
 - RPMS-EHR

Update on Training

- Increasing use of Web Ex to decrease burden on OIT as well as the field
- EHR training- will be reviewed and possibly revised for FY 07
- Review of 'paying' for training that is on site either in Albq or Area offices

Update on 300

- Tier One Investment
- Increasingly onerous reporting burden
- Currently under a Corrective Action Plan
 - EVERY project needs to have charters, WBS, requirements and design documents, risk management plans, and other artifacts
 - Includes the development of a comprehensive annual work plan
 - Include monthly updates (to start in May)
- Focus on accurate projections for schedule, requirements and cost
 - Goal is earned value variance less than 10%
- Need to meet ANSI EV standards by May 31
- Ongoing focus on project management with secondary 'impact' of this on development
 - SLOWSSSSS development
 - Goal of CMMi level 2 (already met in some application development)
 - Change of federal staff to increased management role

RPMS Priorities for 07 and 08

- Continued development, deployment and support for RPMS-EHR
- iCARE
- Behavioral Health
- Vista Imaging
- EDR
- CRS
- Billing/ administrative changes
 - Impact on UFMS
 - Need for increased cost accounting
- Others?

ISSUES

- 508 compliance
- Increased project management burden
- Additional staff to support increasing administrative/reporting/ fiscal burden
- Impact of UFMS on administrative applications
- Funding Availability
